Profile

Fourth-year Software Development and Management student at the Technological University of Panama, focused on becoming a fullstack developer. National Finalist at JIC UTP 2026 with RiskTrail. Skilled in problem-solving, teamwork, and adapting to new technologies, with a strong commitment to continuous learning.

Education

Technological University of Panama
Bachelor's Degree in Software Development and Management
Fourth Year undergraduate student (2023 - Present)
Expected Graduation Date: 2026

Languages

- **Spanish** - Native Level
- **English** - Advanced Level (B1+)
- **Mandarin** - Intermediate Level (HSK4)
- **Cantonese** - Intermediate Level

Internship Experience

Software Development Intern | KW Obarrio Real Estate — Remote May 2026 – Jun 2026

- Designed and developed an automated system for the dynamic generation of real estate marketing landing pages, integrated into the company's central portal.
- Moved the architecture to a decoupled native stack (vanilla PHP 8.5 and JavaScript), removing dependencies on frameworks and WordPress.
- Implemented an event-driven flow consuming JSON emitted by MySQL triggers after property publications from the Python-based central backend.
- Built a dynamic routing engine with .htaccess for SEO-friendly URLs and responsive frontend components focused on conversion.
- Ran integration tests and payload simulations with Postman in local staging.

Software Development Intern | peqa.ai — Remote Jan 2026 – Mar 2026

- Contributed to an AI-powered FinTech platform (*FinButler AI*) built on a microservices architecture.
- Resolved critical production issues (auth, transactions) as a Fullstack/QA developer.
- Improved frontend UX using React & Tailwind CSS.
- Debugged frontend-backend communication (React + FastAPI).
- Implemented secure multi-tab session handling.
- Worked with Docker, PostgreSQL, Redis and AI services.

Internship in Web Development and Multimedia | Universidad Tecnológica de Panamá (UTP) — On-site July 2025 – October 2025

- Participated in the DiGITED project within the Directorate of Innovation and Educational Technology.
- Worked on Frontend development using Vue.js and Backend with Flask.
- Contributed to the design and implementation of technological solutions for the educational field.
- Assisted in the development of interactive and dynamic web applications, enhancing user experience.

Internship in Business Intelligence | Insignia Financial Advisors (IFA BPO) — Remote June 2025 – July 2025

- Participated in a training and development program in the Business Intelligence field, working on basic tasks within the department under technical supervision.
- Utilized tools such as Excel and Power BI for data analysis and report generation.
- Collaborated on practical projects using real-world tools in a professional environment.
- Developed analytical skills and problem-solving abilities in a remote work setting.

Projects

RiskTrail (GIS Hiking Risk System JIC UTP 2026 National Finalist) 	08/2026
Team project (backend developer) of a geographic information system that computes a dynamic risk index for hiking routes, combining biomechanics, DEM elevation and live weather (WBGT, rain) to find the safest path. Built with Python, FastAPI, PostgreSQL/PostGIS, pgRouting, Vue 3, TypeScript and Docker. Selected to represent UTP at the JIC 2026 National Final.	
Checkers (Full Stack Game AI Opponent) 	05/2026
Full-stack checkers platform with an AI opponent built on Minimax with alpha-beta pruning across 3 difficulty levels, real-time board sync via WebSockets and a server-authoritative rules engine.	
Pokémon Battle Rooms (Real-time Web App) 	05/2026
Real-time 1v1 battle web app with code-based rooms, live PokéAPI data, MongoDB persistence, a server-side battle engine, WebSockets, Clerk auth and Stripe.	
Healthora (E-commerce Full Stack) 	04/2026
Pharmacy and health e-commerce with a 200-product catalog, persistent cart, Stripe checkout, Clerk authentication, MongoDB and an admin panel with real-time metrics.	
IntelliDocs (AI Document Analysis System) 	12/2025
Engineered a multimodal document analysis platform using Python, FastAPI, and Streamlit, powered by Google's Gemini 2.5 Flash. Features semantic search, interactive document chat, and smart comparison capabilities for processing PDFs and images efficiently.	

Skills

Hard Skills

- **Programming Languages:** Java, C#, JavaScript, TypeScript, PHP, Python
- **Web Technologies:** HTML, CSS, Tailwind CSS, Bootstrap
- **Frameworks:** React, Vue, Flask, FastAPI
- **Databases & Caching:** SQL Server, MySQL, MariaDB, SQLite, PostgreSQL, MongoDB, Redis
- **Version Control:** Git, GitHub
- **DevOps / Tools:** Docker
- **Design Tools:** Figma
- **Database Tools:** HeidiSQL, phpMyAdmin, DBeaver

Soft Skills

- Problem-Solving & Analytical Thinking
- Teamwork & Collaboration
- Effective Communication
- Responsibility & Time Management
- Creativity & Critical Thinking

Certificates

- Python and Artificial Intelligence Program – Samsung Innovation Campus – 12/2025 
- Machine Learning Explainability - Kaggle - 11/2025 
- Intro to Machine Learning - Kaggle - 11/2025 
- Intro to Programming - Kaggle - 11/2025 
- Python – Kaggle 10/2025 
- Certification in Linux Unhatched - Cisco Networking Academy 28/10/2025 
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle University 14/10/2025 
- Certification in Forensic Computing - Academia Progenios 09/2025 

Awards

National Finalist – Scientific Initiation Conference (JIC) UTP 2026 	08/2026
<i>Universidad Tecnológica de Panamá</i> RiskTrail was selected at the JIC UTP national round in Coclé (Aug 7, 2026) as one of the projects representing the Technological University of Panama at the National Final. Team: Irvin Benitez, Roy Barrera and Kelvin He; advisor: José Chirú Figueroa.	
Honorific Title – Junior Developer 	09/2026
<i>Departamento de Programación de Computadoras – FISC, Technological University of Panama</i> Honorary title granted in recognition of notable commitment, trajectory, and active participation in extracurricular academic projects and initiatives.	
Certificate of Honor for Merit – Honor Chapter 	10/2025
<i>Technological University of Panama</i> Recognition awarded to outstanding students for their dedication, responsibility, and academic excellence during their education in the Faculty of Computer Systems Engineering.
